

Diksha Swami

Prototype

Develop a prototype Android application for managing learning sessions and attendance at SpacECE India Foundation's Umang Centers. The app will be used by facilitators to record session details, track attendance, and generate reports for analysis.

Assignment Deliverables:

1. App Development (Prototype)
2. Technical Documentation (Document)
3. Feature Enhancement Suggestions (Document)
4. Code Submission

Attendance page

A screenshot of a mobile application's 'Attendance' page. The page has a blue header with a hamburger menu icon and the title 'Attendance'. Below the header, the title 'Mark Attendance' is centered. There are five text input fields with labels: 'Student Name', 'Roll Number', 'Class & Division', 'Subject', and 'Subject Teacher'. Below these fields are two radio buttons labeled 'Present' and 'Absent', with the 'Present' button selected. At the bottom is a large blue button labeled 'Submit Attendance'. The status bar at the top shows the time 11:27 and various icons. The bottom navigation bar shows standard Android navigation icons.
